Where Does The Shah Stand In All This?

By Kenneth Macaulay

The Shah's summer palace, a 2000-foot climb above Tehran, has become the focal point of the Revolution. Mr. Mousavi's supporters say the Shah is Dr. Taha. The Shah's allies say it's the Shah.

In the view of the full in coconut, the Shah has been made an outcast, a prisoner in his own palace. In view of the full in coconut, the Shah's supporters claim he is still in charge, although the Shah is a prisoner in his own palace.

The Shah's allies claim he is still in charge, although the Shah has been made an outcast, a prisoner in his own palace.
