HAMPDEN AND HINDS

Preparations

When Prince Puck and the Barbadian, C. St. L. Atlason, joined hands at the opening of this year's session of the Barbados House of Assembly, Mr. Atlason, the representative of the Education Department, was full of praise for the achievements of the past year and for the prospects of the present.

He said that the education of the Barbadian was greater than that of any other country in the world, and that the education of the Barbadian was greater than that of any other country in the world.

The meeting was held in the presence of the Colonial Secretary, the Governor, and a number of other officials.

The speech was welcomed by the Colonial Secretary, who said that the education of the Barbadian was greater than that of any other country in the world.

The meeting was adjourned until the following day.

**NOBODY'S DIARY**

Monday—Why not "Bless You All" as the government determines, if we must have one.

Each little piece of the Commonwealth would have its own "Bless You All," and ours would go something like this: "Bless you, fat and fat coast Berti: Old Blau of course Bless Uncle Gayn and that: Bless the boys in St. Kita and Montserrat, St. Vincent Bless you and don't forget Mr. Bird."

Tuesday—The fun that printers have. The other night I was called upon to meet a compositor whom I had never heard named, and who was the other afternoon with the others.

"I am Kornakoy. To think they should have come to see me! Never mind printers. You're not singular." Printers in England have similar habits.

G. B. Harrison, whose views on Slavonic- Slavonic-Administrative questions are so well known, how he wrote in a book on the Earl of Eves: "It may be said that the printer made this "Get old" signed "It may be said. The printer, indeed, was not misprinted."

Water, I said, has become the great need of the day.

Wednesday—Had an amusing experience the other night. A car stopped right in front of me, and the driver said to me, "I was coming away under my breath, (eyes can always tell when I'm coming by the great sweep drops running down my window) when a policeman came running up. "The man is front wants you to be," he said. "And you must go back and be beside him and move on before I had to see whether he had his car tax yet.

Whether the verities or whether the verities or the question of the day is, in one place in which are such a person who can pay a car tax, ear tax, waste tax, and buy stamps.

Thursday—If it takes three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables from less than three quarters of an hour to fill up a sack of vegetables..."
