Six-Month Drought Affects Water Supply In Bridgetown

Less Water For Garden Use Likely

The drought of the last six months is making itself felt in the worsening discharges of the Northern and Corinna Springs and the Baramita stream, all of which are now providing less water than usual. The water is being increasingly used for irrigation, and there is much concern about the future supplies. The water levels are significantly lower than normal, and there is fear that the supply may not be sufficient to meet the demands of both the agricultural and domestic sectors.

Adhikari Scores His 1st Hundred This Tour

(Born in Our Correspondent)

LONDON, Aug. 8

Raj again showed off his wicket-keeping and only two wickets fell for Blackpool. Lancashire's match with Sussex was abandoned without even a decision at the end of the second day. At Birmingham the Indians' wicket-keeper Adhikari completed his first century of the tour. Because of intervening rain he has batted on each of the three days of the game. It has been declared that he had made 303 runs, but the figures cannot be taken seriously. The first innings only went on for just under three hours, rain brought play to a halt. Sussex is 88 in 23 overs, with five wickets down. His figures are more revealing than the score. In the second innings they are 130 in 35 overs, with five wickets down.

Firm Will Carry Out Photographic Survey Of B.C. Foya

LONDON, Aug. 8

The company will be responsible for the survey of the B.C. Foya area, which will be undertaken by experienced staff. The firm will be responsible for the survey of the B.C. Foya area, which will be undertaken by experienced staff. The firm will be paid a fee of 100 pounds for the work.

TAXATION ON FIRM IN COLONIES

A report has been made available to the local government as part of the investigation into the tax implications of the firm's activities. The report recommends that the company be taxed at a rate of 10% on its profits. This is expected to generate around 150,000 pounds in revenue per year.

Radio Telephone Set

The radio telephone set at the Lady Hod will be used for communication. The Harbour Master, Mr. Goddard, Mr. Sprigg, and the Harbour Master's Office have all been involved in the setting up of this new system. The Harbour Master said, "It is a very successful system and we are confident that it will be a great asset to the Port."
