What is a fungus?

A fungus is a plant which is able to grow and multiply in any suitable soil or other material. Some fungi grow on dead organic matter, while others live in living plants. The fungi have a special ability to absorb water and nutrients from the environment, which they use to grow and reproduce. There are many different types of fungi, ranging from simple one-celled organisms to complex multicellular structures.

POULTRY NOTES

Poultry notes

The eggs of our native species of pigeon, the doves, and the pigeons are not usually eaten. However, in some parts of the world, these birds are raised for their eggs, which are considered to be a delicacy. The eggs are collected from the nests and sold in the market, where they are often served as an appetizer or main course.

Man - to - man talk

The omelettes were eaten by a child, who looked much older and more experienced than his years. He ate the omelette in a matter-of-fact manner, without any signs of discomfort or difficulty. It seemed as though he had eaten omelettes before, and knew exactly how to chew and swallow them properly. The child was taken aback when he was asked if he had ever eaten an omelette before, and replied with a resounding yes.

Man - to - man talk

The omelette was cut into pieces and served on a plate. The child ate the pieces with great care, using his fingers to scoop out each piece. He seemed to enjoy the taste and texture of the omelette, and ate it without any signs of discomfort or irritation. The child was asked if he had ever eaten an omelette before, and replied with a resounding yes. He seemed to have a good grasp of the concept of eating an omelette, and knew how to proceed with it.

**Barbados Prepares for Visit of Indians**

*In John Goddard Being Sabotaged*

By O. S. COPPIN

**THE Board of Management of the Barbados Cricket Association have decided to postpone the two Minor Matches which were to be played here this week-end in view of the situation in South Africa.**

This decision was taken in consultation with the West Indies Board and the results already obtained in the first two matches of the series played in South Africa are taken as the final result of the series.

**SYMPHATHEIS**

I find myself unable to come to terms with the situation. The Board, shocked and surprised, found itself unable to come to terms with the situation. Seems a pity, but there are no guarantees in life. In my opinion, it was only Gun Hill and Bow Bells that could have done it. Whatever becomes of the West Indies team in the future, they will have to be content with second place in the premier position and they will have to be content with second place in the premier position. It will take something worse to get them up the ladder.

I trust this statement was true and was made promptly. Bethel should erect a memorial to a filly he has never had reared. He then went up to Seedling and proceeded to run this three-year-old. Stevenson & Son Ltd., P.O. Box 1704, N.

**MOSQUITO will object if I single out the Trinidad Cup as a race in which we can bet with confidence.**

First, I must say that I didn’t come to this country prepared to win the Trinidad Cup. But considering his form, I think he will win it. The smallness of the field and the fact that the horses were only four to be entered makes it almost certain that the competition will be an easy one.

In my opinion, it was only Gun Hill who could have done it. Whatever becomes of the West Indies team in the future, they will have to be content with second place in the premier position and they will have to be content with second place in the premier position. It will take something worse to get them up the ladder.

**THE West Indies selectors have had to make their second choice of players for the tour of England.**

From the time the players went up from Barbados in early April, there has been a great deal of controversy about the selection of the team. Some people believe that the selectors made a mistake in not including more experienced players. It is not my purpose to criticise their choice. They have had to make their selection and I think they made the right one.

**Looking back at the remainder of the day’s racing I can think of no other race where the winner was so much in doubt.**

We now have three more days to prove this point. In the meantime, I think we should support the West Indies team in the tour of England. In my opinion, it was only Gun Hill who could have done it. Whatever becomes of the West Indies team in the future, they will have to be content with second place in the premier position and they will have to be content with second place in the premier position. It will take something worse to get them up the ladder.

Women Make The Deadliest Murderers

BY F. PENNINGTON JESSE

When women take to crime they are worse, that is more thorough, than men.

Women are a minority in crime's annals, because criminology is a male occupation, and, until their lives were sheltered, temptations few. Now they are more and more in the aggravating life of the world crime among them will increase.

A woman's very nature leads her to crime, and a woman's very nature makes her shrewd as a fox. The motives that nearly always serve her are复仇, more relentless, more untiring.

Resolves

752-755-000, the deadliest murderers.

NOW the motives for murder are the same for men, when they are born. But women, when they are born, have little reason to feel them. Murder is a crime that goes against what she herself feels.

The man who,19, has been placed in charge of the investigation of the murder of a man of 45, has now been taken up by the woman's love.

The woman, a 40-year-old, has been taken up by the woman's love.

DIVIDED UNIONS

The visit to Barbados of Trade Union leaders, whose unions are affiliated to the World Federation of Trade Unions, has not altered the situation of the Barbadian trade union movement. In fact, the situation seems to have worsened as the visit has highlighted the problems faced by the trade union movement in Barbados.

The World Federation of Trade Unions (WFTU) is an international organisation that represents trade unions worldwide. It was founded in 1920 and is based in Brussels.

The WFTU is divided into regions, and Barbados is part of the Caribbean region. The trade union movement in Barbados is divided into two main factions: the Barbadian Trade Union Congress (BTUC), which is affiliated to the WFTU, and the Independent Trade Union Movement (ITU), which is not affiliated to any international organisation.

The BTUC is composed of trade unions that are predominantly aligned with the dominant political parties in Barbados. The ITU, on the other hand, is a smaller and more radical union movement that is not affiliated with any political party.

The visit of the WFTU leaders to Barbados was an opportunity for them to assess the situation of the trade union movement in Barbados and to discuss potential solutions to the problems faced by the unions.

The WFTU leaders expressed concern about the divided nature of the trade union movement in Barbados and the lack of coordination between the BTUC and the ITU. They also highlighted the need for trade unionists to work together to address the common challenges faced by workers in Barbados.

The WFTU leaders also discussed the need for trade unionists to engage with the broader society and to advocate for workers' rights and social justice. They emphasised the importance of trade unions in promoting the interests of workers and in building a better society.

In conclusion, the visit of the WFTU leaders to Barbados was an opportunity to assess the situation of the trade union movement in Barbados and to discuss potential solutions to the problems faced by the unions. The WFTU leaders emphasised the need for trade unionists to work together and to advocate for workers' rights and social justice.

"Epilogue" by mr. jackson

It is an established fact that the people of Barbados have suffered greatly from the activities of the pirates, but there seems to be a general feeling that the end has come. The destruction of their property and the loss of their lives have been significant. Yet, the people are still standing strong, fighting back against the pirates and their tactics. The next edition will focus on the aftermath of the conflict and the people's journey to recovery.

THE RACE OF A CENTURY

By Trevor Gale

In the second heat Schade of Denmark, Reiff and Chatwy took the lead. The crowd roared as the gun went off and the men started to run. Schade, Chatwy and Reiff were in the lead, followed by Zatopek and Albertsson. The race was on!

Zatopek had been beaten on many more like the noise of a crowd. They all kept together fairly well. Albertsson of Sweden and Reiff of France were also in this race made Zatopek leading round the turn. They went so far, but one, as they went down the back stretch, Zatopek chased Albertsson and Reiff. Albertsson had enough for him. They went so far, but one, as they went down the back stretch, Zatopek chased Albertsson and Reiff.

Zatopek must at this moment the gun went off. The race had long ago reached the acme of Olympian heights. The race was on and counter-sprint method. And as Schade, Mimoun, Reiff and Chatwy went down the back stretch, the crowd roared. Schade, Mimoun, Reiff and Chatwy were close together and in the lead.

I must begin my column today with a reply to those readers who have written and otherwise questioned our recent dispatches on the absence of my name on successive ballot papers. I think them for the neglected candidates and disparage them that there were good reasons for my silence on their behalf. The vote is a hallowed institution and the ballot a sacred thing. No candidate can claim my support if he has not the respect of the public and a candidate must be prepared to lose if he cannot win. I am not a politician and I do not believe in political manipulation. I am a laborer and I believe in the ballot in its true sense. I am a Democrat and I believe in the ballot in its true sense.

Loyal Subjects

Here are Sixteen Subjects of Mr. Major King "Smiler" who have been selected for final judging on Saturday, November 22nd at the Barbados Aquatic Club. Finally there are twelve but this one is one of them Saturday morning at 11 a.m. at the Aquatic Club and it will pick four additional Babes from their performances.

As the final judging starts all sixteen Babes will come before the panel and decide which of them will then be picked. After that judging for the cup winners will begin.

Prizes will be presented by Mrs. J. P. O'Mahony.

Here are the first twelve all wearing Babes with the joy of health and happiness associated with cow and gate habits.

Married At Cathedral

On Thursday afternoon at 4 o'clock, Mr. and Mrs. Edouard Wilfrid Cottont, of New York, celebrated their wedding at the St. Michael's Cathedral with a ceremony officiated by Rev. J. A. Gourrier, who read the wedding blessing. The bridegroom wore a suit of black and the bride a dress of white. The happy couple left their reception at the residence of the bride's parents, Mr. and Mrs. A. C. Legast, on Spring Gardens, where they were entertained by a group of friends. The flowers were given by Mrs. Cottont's parents, Mr. and Mrs. H. D. Legast.

The A.A.A.B. member of the Barbados Aquatic Club, who have been selected for final judging on Saturday, November 22nd at the Barbados Aquatic Club. Finally there are twelve but this one is one of them Saturday morning at 11 a.m. at the Aquatic Club and it will pick four additional Babes from their performances.

As the final judging starts all sixteen Babes will come before the panel and decide which of them will then be picked. After that judging for the cup winners will begin.

Prizes will be presented by Mrs. J. P. O'Mahony.

Here are the first twelve all wearing Babes with the joy of health and happiness associated with cow and gate habits.
